

Expert commission for classification  
and categorization of scientific conference  
Banja Luka, 18<sup>th</sup> October 2023

**REPORT**  
**on the performed classification and categorization of scientific conferences after the meeting  
held on 18<sup>th</sup> October 2023**

The "*New Economy*" scientific conference, organized by the **Oikos Institute, the Research Center from Bijeljina**, changed its classification after the submitted documentation for the re-classification and categorization of the scientific conference, and was classified as an international *scientific conference of special importance*, and based on the fulfilled criteria for classification and categorization (he received an additional one point for the regularity of holding) and was awarded **19 points**, which represents *the first category*.

The criteria from the aforementioned rulebook are scored as follows:

Criterion	Achieved number of points	Maximum number of points
According to the importance and impact on the development of science (Article 3 of the Rulebook)	10	10
Adequacy of reviews (Article 17 of the Rulebook)	3	3
Standards of organization and preparedness (Article 18 of the Rulebook)	1	3
Regularity of holding (Article 19 of the Rulebook)	5	5
<b>Total</b>	<b>19</b>	<b>21</b>
